False news no longer has any effect, and the lying reports of the newspapers are universally disbelieved. Although the hand of the cemoor has been very heavy one believes the worst.

The government has arranged to continue the agitation against the British occupation of the two republics on the continuent of Europe, in Great Britain, and in the United States. Great efforts are to be made in this direction, and no expense will be spared. I have excellent reasons for believing that the Bewaarplastsen rights have been sold to a French syndicate, without the sanction of the Volksraad. The covernment hopes by this means to ring about French intervention for the volcation of French rights in the litwatersrand, and thus to contain the litwatersrand, and thus to contain the conduct.

DECISION IN INSURANCE.

NEW YORK CASE REOPENED. WASHINGTON, May 28.—Justice
Brewer today handed down the opinion of the Suprems Court in the
somewhat celebrated insurance case
brought by the executors of Guy C.

against tha Mutual Life Insurance
Company of New York to recover upon
a policy of insurance upon his life
amounting to \$100.000.

Phinney of the State of Washington against the Mutual Life Insurance Company of New York to recover upon a policy of insurance upon his life amounting to 100,000.

Phinney had paid the first premium rupon his policy and had failed to pay the second and third premium, dying soon after the third premium was due. On the trial, the contention was made that the State statute of New York, requiring specific notice to the insured of the date when a premium is due and the place where it could be paid, was applicable. The trial court ruled in accordance with this contention, and the jury brought in a verdict against the insurance company for the ninth circuit dismissed the case on a technicality.

The Supreme Court today declined the question of the applicability of the New York insurance laws to the case and disposed of it upon the ground that the Court of Appeals had jurisdiction. A new trial was ordered. The decision was in the interest of the insurance company. Several other insurance cases were decided by Justice Brewer on the same ground.

kins, formerly station agent at Niles, and later at Suisun, was arrested here today on a charge of obtaining money by false pretenses, and of felony embeasiement. Jenkins arrived here on Thursday. At Santa Clara he secured the indersement of Fred Kaeson to a check purporting to have been drawn by Bullock & Co. of San Francisco.

The same day he hired a horse and bugky from Wallace's livery stable. As he did not return the rig, a warrant charging embessiement was issued. The horse and buggy was located Sunday in Oakiand. This afternoon Jenkins was taken into custody, just as he had cashed another check for 320 at the Farmers' Union Bank, where he had been identified by a prominent citizen. This last check was upon the Wells, Fargo & Co. Bank of San Francisco, and purported to have been drawn by Charles Cahen.

Jenkins offers no excuse except that he has been on a drunk for a week. He gave his residence as No. 376 O'Farrell street, San Francisco.

TOWED IN IN DISTRESS.

FUTILE START FOR NOME.
[A. P. NIGHT REPORT.] PORT TOWNSEND (Wash...) May 28.—The schooner Arthur B., Capt. Ackerlan, salling from Seattle for Cape Nome last Wednesday, was towed in at 11 o'clock tonight in distress. She was caught in a gale Friday night, which lasted until Saturday noon, and had two salls and her rudder carried away. While drifting helplessly toward Vancouver Island shore, an Oriental steamer passed, but did not recognize her signals of distress. Her deckload of lumber was thrown overboard in an attempt to repair the rudder.

night at the corner of Third and Spring streets.

According to those who witnessed the affair, it is said that Deway was standing at the corner with a lady, waiting for a Traction car, when Domingues approached, somewhat under the influence of liquor. The men had some words over money matters, and Deway struck Domingues on the head with a cane, knocking him down.

Bystanders interfered at this juncture and assisted Domingues to his feet, when Dewey and his companion boarded the car. Domingues also got on the car and rode as far as Broadway and Third street, but left at this point and went home.

The trouble, it is said, is over a note for \$90, which was given to Dewey by Domingues and City Auditor Carson several months ago, but which Dewey has not been able to collect.

Work Among the Chinese Will Be Complicated.

neration Begins Priday—Many Hard Tasks for the Canvassers.

refuse to understand the questions propounded; others fiatly declined to receive the enumerators; and very many disobeyed the teachings of Confucius by deliberately prevaricating.

To avoid these bothers in gathering the statistics concerning the Chinese residents for the twelfth census, the diplomatic arm of the government has been called upon. His Excellency Wu, His Imperial Chinese Majesty's Envoy Extraordinary and Minister Pienipotentiary to the United States, met in solemn conclave with the statesmen who are guilding the ship of state. As a result of the consultation, the gatherers of statistics who are compelled to quiz Chinamen will first exhibit to the oriental a mammoth and gorgeous proclamation printed in red and black Chinese characters. Two formidable signatures grace this impressive document. Ho Yow, the Consul-General at San Francisco, and Chow Tsychi, the Consul at New York, issue the statement to their countrymen and vouch for the integrity of purpose of the American nation in asking so many questions of the suspicious heathen.

The proclamation, which occupies a large sheet the size of a newspaper page, states that, whereas, Chinese residents through ignorance of the English language may mistake the object of the enumerators to be that of ascertaining what the people possess in order to impose taxes or to investigate certificates of registration, the proclaimers, with great friendship for the reader, desires to assure him that there is no cause for suspicion or alarm. A lengthy description of the purposes of the census is then given. The wording implies that while this is a foolish proposition, yet it is a custom of the labor-seeking Americans, and must be put up with. The proclamation is dated "Kwangshu, Twenty-sixth year, third moon," which means March, 1900.

A CHINAMAN'S AGE.

Every Chinaman knows the year, the

by cycles of sixty years each; and, eccord, by the reigns of the successive emperors. The Chinese month is the lunar month of 30 or 30 days. Each month is known by its number as "first month, second month," etc. A year may have twelve months of 354 or 355 days; or thirteen months of 354 or 355 days; or thirteen months of 353 or 354 days. An extra month is thrown it every second or third year, as it may be needed to catch up with the race of time. All these things, and many more, the hapless collector of facts Chinese must know. An interpretarill be provided in all cases where a necessity arises.

CENSUS BEGINS FRIDAY.

CENSUS BEGINS FRIDAY. CENSUS BEGINS PRIDAY.

The act providing for the taking of the twelfth and subsequent censuss was approved March 3, 1899, so this census will be taken in a different manne than was formerly the case. The feel work is scheduled to begin at 8 o'clock am. Friday. June 1. In any city having 8000 inhabitants or more under the census of 1899 the enumeration must be completed within two weeks, and 4.

BOME HARD TASKS,

Census Supervisor Davis had no dearth of applicants for positions in most districts. The labor is comparatively easy in general. But in some localities the work is extremely difficult. The Dale mining district, in San Bernardino county, is quoted as an example of the hard jobs. The enumerator there will have an expansive desert to travel over, in order to reach the scene of his labors. He will have to journey about on horseback amid the sands for scores of miles in some cases to secure statistics concerning some lone miner who has located far away from civilization. Other canvassers will be compelled to tramp over miles of mountain trail to secure the pedigrees of the miners of oil and of gold, who have located among the hills. The men doing such work are paid a straight \$5\$ per diem.

Indians living off government reservations will be hard subjects for certain enumerators. A special blank has been prepared for the statistics concerning such savages.

It is expected that the enumeration

be mo stay-at-heme Republican vote on the day of the national election.

Every available Republican vote should be brought out and every earnest Republican should be ready to do his part in bringing it out. It is just as necessary for the welfare of the nation that we should retain and preserve the benefits of the spisodid victory of risgs as it was that we should win that victory in the first instance.

And there is the moral effect of the prespective victory to be considered. It is quite true that a majority of one vote in the Electoral College would continue Mr. McKinley in the Presidential chair. A certified and conceded majority or plurality of a single vote in a Congress district would give the office to the candidate receiving it. But the moral effects of the candidate receiving it. But the moral effects of the sandidate receiving it is medians to say, are far greater than these of a victory won by a very close vote. Besides, in cases where the vote is close, there is always a tamptation on the part of the losing side to raise some issue which may result in a reversal of the verdict, and crimes against the suffrage are often committed for such purpose. It is therefore of the first importance that Republicans in every voting precinct throughest the country, no matter whether the vote be regarded as close or otherwise, should use their best endeavors, not dans to assure a victory, but to make the victory as sweeping and decisive as possible.

The fact that the Republican majority is the present Rouse of Representation comes from Wash-

liess in every voting precinct throughlost the country, no matter whether the

The fast that the Republican majority in the present House of Representatives is comparatively small renders
it especially desirable that ne ground
shall be lost by us in that branch of the
government through lack of Republican
majority in the House ought to be increased rather than diminished, and
Republicans should go into the campaign with a firm determination to increase it. In the present crisis it would

When the doors were reopened, it was immediately remarked that Gen. De Gallifet was absent. M. Waldeck-Rousseau ascended the tribune, and his first words tended to confirm the lobby reports, as he immediately made an apologetic explanation of his previous remarks.

"We accept your apology," oried M. De Cassagnac.

M. Deschanel then read a number of orders of the day criticising the government's attitude, and one proposed by M. Leroy-Bouregots, Republican Radical, couched thus: "The chamber, approving the act of the government and confident of the devotion of the army to the fatherland and the republic, passes to the order of the day."

The first part of the motion of M. Bourgeois's approving the acts of the government was passed by 28t, votes against 347, and the second was adopted unanimously.

The essesion then adjourned until

TALK OF A DOWNFALL.

[A. P. NIGHT REPORT.]

PARIS, May 26, 11:45 p.m.—During the discussion, the lobbles of the chamber were filled with Deputies, journalists and the public, axcitedly discussing the incidents of the session, especially the reason for Gen. De Galilfet's withdrawal, as to whether it was due to a sudden indisposition, or intended as a protest against the Premier's remarks. The general opinion was that if the latter had been the case, it would lead to the downfall of the Cabinet.

Color was lent to the rumors of the resignation of Gen. De Gallifet, especially as a Cabinet council was being held at the time. Subsequently M. Del Cases again conferred with Gen. De Gallifet, and according to reports succeeded in inducing him to abandon the idea of resigning, on the understanding that the Premier would withdraw what Gen. De Gallifet considered a reflection upon the army.

(A. F. NIGHT REPORT.)

WASHINGTON. May 28.—Justice Harian rendered the opinion of the court, which turned on whether the words "superiority" or "inferiority" in the statute has reference to suppert of the enemy's vessels by land batteries, mines and torpedges.

"We cannot do that," said Justice Harian, "without going far beyond the obvious import of the word employed by Congress. There is undoubtedly some force in the suggestion that in rewarding officers and saliers who have sunk or destroyed the enmy's vessels in a navel engagement, it is not unreasonable that all the difficulties of every kind with which they were actually confronted should be taken into consideration. But that is a matter which we cannot suppose was overlooked by Congress."

FORERUNNER OF CONSUMPTION.

Few realize what a deep-scated, obstinate disease Churry is, the nose and throat, little or no attention is given it. But, however insignificant it may seem at first, it is serious and far-reaching in its results.

The foul secretions entering the circulation poison the entire system. The stomach, kidneys—in fact all the organs—feel the effect of this catarrhal poison, and when the lungs are reached its progress is rapid and destructive, and finally ends in consumption.

It frequently happens that the senses of hearing and smell are in part or entirely lost, the soft bones of the nose esten into and destroyed, causing intense suffering and greatly disfiguring the face. While sprays, washes and salves may give temporary relief, no permanent benefit can be expected from such treatment.

TOLD OUT OF COURT. HUMOROUS STORIES OF THE BENCH AND BAR

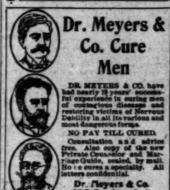

[Omaha Bee:] "Gentlemen of the jury," said a Cleveland attorney for the defense, "we will now introduce our star witness. After hearing her testimony you will never have the heart to convict my unfortunate client of burning his barn. Speak up, madam."

"For forty-three years," said the witness, "I've lived with the defendant, an' commencin' with the day after we wus married, I've built the fires reg-lar every mornin'. Start a fire! Why, that man couldn't start a fire! a powder magazine!"

Whereupon the jury acquitted him without leaving their seats.

Jack Vance, a cowboy from the ranch of the Butte Creek Cattle Company, was on trial at Alliance, Neb., reports the Denver Times, on a charge of shooting at a brakeman on the Burlington Raliroad with intent to kill him. He had received his pay a few days before, and was engaged at the time of the shooting in the picturesque pastime of painting the country red.

Vance vehemently denied any intent to perforate the brakeman. He told the court that while it was true that he did take out his revolver and shoot after the brakeman had pushed him off the train he was merely giving a prearranged signal. He and a friend had been down the road a few miles and wanted to ride back to the nearest station to the ranch. Realizing that

BIG TEMPERANCE MEETING.
COVINA, May 28.—[Regular Correspondence.] On Sunday evening union temperance services were conducted in the Christian Church by Rev. Mr. Ingram of Pasadena. The building was crowded to its utmost capacity, and many were unable to gain admittance. Great interest has been created in the temperance cause at this time, through the determined fight which is now being made by the liquor men to secure a retail liquor license. At the close of the meeting a petition addressed to the Board of Supervisors, protesting against the granting of a license, was largely signed.

SANTA ANA TRIAL OF SHADE TREE CASE. SANTA ANA, May 28.—(Regular Correspondence.) Interest today cen-tered in the trial of S. Hill in the Jus-

pepper trees along the curb in front of his residence, on a street in which sewer pipe has been laid. Mr. Hill is a lover of pretty shade trees and good sense, and he consequently does not take kindly to the insane idea of denuding the streets of beautiful trees that have taken years of patient labor and waiting for their growth.

There was considerable difficulty in procuring a jury to try the case as a large number of the citizens examined touching their qualifications to sit as jurors, testified that they had opinions formed favorable to the defendant, or in other words, that they thought he had done right in refusing to obey the order of the street superintendent. It was almost 3 o'clock before a jury of twelve men was procured, and consequently but little evidence had been taken up to the time this report closed. Mr. Hill states that if he is found guilty under the city ordinance, of violating the law, he will then endeavor to ascertain whether or not the ordinance is constitutional.

TRIAL OF A. MURDER CASE.

SANTA BARBARA. May 32.—[Regular Correspondence.] The trial of Thomas Herd, charged with murder, was begun in the Superior Court this morning. The entire day was consumed in the effort to secure a jury, only four jurymen having been accepted up to the hour of adjournment. The trial promises to continue for several days. Herd, who was a laborer at one of the railroad camps, is accused of murdering John W. Smith. The alleged crime was committed while the two men were passengers on a stage coach running between this city and Lompoc and was the result of a quarrel over some trivial matter, to which no attention would have been naid had the men been sober. Since his arrest the defendant has refused to make any statement, but it is understood that he will endeavor to make a case of self-defense. SANTA BARBARA COUNTY.

"Has his hands fuil" to give value
—dollar for dollar. You've a right
to be suspicious o' more. Some
thing is surely wrong—quality is
skimped — making is siighted —
trimmings are poor. Where do
you suppose these philanthropists
make their profit?

We don't hesitate to say our
prices include a profit. They must.
We pay our bills. But our shoes
are full value shoes and we still
give you the most for your
money at our regular prices.
